TITIMITI META NETWORK

A gamified social finance platform built on an anti-fragile decentralized ecosystem, a next-generation marketing hub.

The TiTi NFT Metaverse combines pillars of Play-to-Earn, Decentralized Finance and social system, serving for the benefit of all its participating members.

THE GOAL OF THE TITI MITI

Metaverse's is to transform human zeal and the pursuit of wealth into a force for good. The TiTi Metaverse aims to create a space that brings endless opportunities for marketing and integration for businesses.

BRIEF STRUCTURE OF THE TITI MITI NETWORK

GLOBAL MAP

At the core of the metaverse's lies the concept of digital land.

The planet is divided into plots of 5 km² (1,000 m x 1,000 m) each, for a total of 1,000,000 lands.

Each NFT plot on the planet is a functional, tradeable asset that can be used for building, playing and the management of the TiTi Meta metaverse.

GLOBAL MAP PLOTS ARE DIVIDED INTO THREE TYPES

ANTARCTICA (NFTA)
No Mine Vertical

It belongs to the project development and is the only place where the NFTs can be exchanged for the NFTs of the metaverse's to its Landlords for consideration.

LAND PLOTS (NFTL)
Mine Vertical

Landlords (NFT owners) receive a percentage of the income of the mines in the land plots they own, the more plots or mine farms, They also receive a percentage of the income of metaverse through voting.

MARINE PLOTS (NFTM)
4.25 NFT Mine Per 10 Km²

They primary function of NFTM is to provide a place for the Metaverse's Crews, Sailors and Pirates to interact with each other.

DAO TITI MITI

The main function of the DAO (Decentralized Autonomous Organization) is to manage the TiTi Metaverse's.

AGENDA ITEMS

HOLDERS OF NFTA (ANTARCTICA)

- STRATEGIC DECISIONS
- TOKENOMICS AND ECOSYSTEMS
- DECISION MAKING THROUGH COMMENCEMENT OF VOTING AND NFTA OWNER POWER, NFTA VALUATION
- PROJECT FINANCING

HOLDERS OF NFTE (LANDLORDS)

- MARKETING COMMITTEE
- R&D DEPARTMENT
- FINANCIAL ADVISOR
- DEVELOPMENT COMMITTEE
- DECISION MAKING THROUGH VOTING, NFTE OWNER POWER, PROPOSALS AND VOTING RIGHTS
- SECURITY DEPARTMENT

TITI MITI NETWORK OFFICE

MITI TOKEN (MITI)

MITI TOKEN (MITI)
TOTAL SUPPLY 1000.000.000

A functional coin created on the Polygon Network, the main purpose of the Metaverse's Gaming and Mining Pool is the Open-source metaverse.

Ticker: MITI	Blockchain Network: POLYGON
Token Supply: 100.000.000 MITI	Forecast listing month: 09-12 2024
Forecast market price: 5.25$ USD	Forecast market volume: 68.308.000 USD

DISTRIBUTION OF MITI WITH IN THE METAMETWORK

40% MITI
Non-circulating supply to cover production costs

60% (MINING POOL)
Non-circulating supply, 40% to cover Gaming and Mining

EMISSION IS LIMITED

- 7.000.000 MITI – Airdrops
- 1.000.000 MITI – Airdrop (NFT OTC)
- 1.000.000 MITI – Liquidity (NFT OTC)
- 1.000.000 MITI – Marketing (NFT OTC)
- 1.000.000 MITI – Liquidity pools (CEX)
- 1.000.000 MITI – Liquidity pools (DEX)

FOUNDS WILL BE IMPROVED ON 09-12, 2024

HOLD 18.000.000 MITI	7.000.000 MITI – Airdrops 1.000.000 MITI – Airdrop (NFT OTC) 1.000.000 MITI – Liquidity (NFT OTC) 1.000.000 MITI – Marketing (NFT OTC) 1.000.000 MITI – Liquidity pools (CEX) 1.000.000 MITI – Liquidity pools (DEX)

HOLD 42.230.000 MITI	FUNDS WILL BE IMPROVED ON 09-12, 2024 EXPLORATION OF LAND PARCELS
	ECOSYSTEM FOUND

MINING POOL

Every NFTM owner can activate their vessel (mining pool) for a period of 30 days, the vessel will be able to mine MITI tokens, the quantity depends on the number of NFTM owned and the rarity of the NFTM (a very amount of MITI).

MITI TOKEN MINING PROCESS IN THE MINING POOL

1 The creation of a Mining pool requires the ownership of a marine plot (NFTM) by a Landlord.

2 Other shipping crews and sailors can join the Mining pool by paying a fee. It is a special marketplace for the Metaverse's Crews.

3 To start mining, 30% of the pool must be filled, the rewards will be shared, the pool crew can share their pool with NFTs.

4 The NFTM owner receives 10% of the income, the crew receives 60%, and 30% goes to the Ecosystem Fund.

MINING IS LIMITED TO 94,000,000 MITI

10% | 20% | 70%

Mining Emission: 2.000.000 MITI	Mining Emission: 2.000.000 MITI	Mining Emission: 20.000.000 MITI	Mining Emission: 30.000.000 MITI
Per epoch: 6.75 MITI	Per epoch: 6.75 MITI	Per epoch: 6.75 MITI	Per epoch: 6.75 MITI

ZOOM LOUPE

A unique metaverse within the TiTi Meta Metaverse, the Loupe is worldwide together for collaborating, hunting, communication, and trading.

Find pieces of the map, claim them using various gaming items (GNFT), and receive real rewards.

Look through the Zoom Loupe to find pieces of the map and gaming equipment, and earn rewards anyone can find not between 1 and 10 times.

Collect and use Gaming Equipment (GNFT) and claim the legendary chest with maximum valuable mode.

THERE ARE FOUR LEVELS OF ZOOM LOUPE CHESTS

WHAT CAN BE FOUND IN ZOOM LOUPE CHESTS?

GAMING NFT (GNFT)

For efficient crew sailing and crewing, Titimiti metaverse gaming items such as smartwatches, lock picks, and equipment. All these items are legitimate NFTs and have their own unique characteristics.

LOCK PICKS

Lock picks increase the opening speed of a specific chest. However, raising picks have a limited number of uses, the number of uses to open a chest is dependent on the chest's level.

Each lock pick has such characteristics to the chance of opening and uses. They can be repaired using repair kits.

SMARTWATCHES WITH RADAR

Smartwatches can be used to find the chests of a specific level.

EQUIPMENT

RESOURCES FOR REPAIR AND IMPROVEMENT OF LOCK PICKS

Repair kits are used to repair lock picks, and improvements are used to improve them.

In addition to chests, players can find basic components on the map, by collecting certain certain components a player can craft an improvement. Then in our marketplace or craft them into a more valuable component from the next level.

MARKETPLACE

Using the marketplace you can purchase, sell, or exchange gaming NFTs, or any other.

In the marketplace, people can sell or buy items for USDT, GNFT, or MITI	USDT transaction fee: 15%	GNFT transaction fee: 15%	MITI transaction fee: 10%	Ecosystem found: 60%
GNFT → USDT	15%	15%	10%	60%
MITI → USDT	15%	15%	10%	60%
USDT → GNFT	20%	10%	70%	

ECOSYSTEM FUND

10% | 20% | 70%

ECOSYSTEM FUND | GAMING FUND | LIQUIDITY POOL

To ensure the reliable operation of the metaverse, a financial ecosystem is needed, which will provide liquidity and expansion. It is responsible for insurance, development, and financial regulation. Such which is the operation of the internal market.

INVESTMENT OFFER

#1 ANGELS
Private Sale
Vesting 24 months
Tge 5% and 1% 24 months
Projected market price: 0.25 USD

#2 ARI DROP
Airdrop and IDO
Vesting 12 months
Projected market price: 0.5 USD

#3 LEGENDARY PACKS
Airdrop
5.000.000 MITI (NFT OTC)
NFT OTC TGE 5% & Vesting

TI 500.000 MITI

"The projected price of the MITI token is 5.25$ USD, the current price is 0.25$ USD, the difference between the current and projected price is a result of the low value the condition of vesting, the vesting period is 24 months, the TGE is 5% and 1% per month, the APY of the lock NFT is 1.500%."

#4 PRIVATE SALE
Private Sale
Vesting 24 months
Tge 5% and 1% 24 months
Projected market price: 0.25 USD
